

FIRST AID, INJURY CLAIMS AND AMBULANCE COVER

- All Diocesan sporting events will have first aid coverage from external and qualified providers. Schools are encouraged to bring their own basic first aid kits to carnivals to treat minor injuries for their own students. Injuries of a more serious nature should be referred to the first aid attendant who will be identified at the start of the day to all team managers.
- At times, where the injury is of a more serious nature the first aid attendant will complete an accident report form and may suggest follow up consultation with a doctor or physiotherapist. A copy of this injury form will be made available to the school and executive officer.
- If needed an ambulance may need to be called to transport an injured student to hospital. School team managers/coaches should be made aware of these arrangements and make contact with the school and parent/guardian to advise of this situation.
- The Wagga Wagga Diocese has liability insurance for student accidents through the Catholic Church Insurance (CCI) and can provide some cover for the cost of any hospital treatment or other benefit if cost arises from an injury while engaging in a sporting activity as part of a school team. Please note that CCI is not a registered health fund and cannot pay all medical expenses.
- Parents can also make contact with their school office if they have questions around this claim process.
- The following links will provide you with some information around the School Care policy and the process for making a claim
